

1. Record Nr.	UNINA9910792330603321
Autore	Bellinger E. G
Titolo	Freshwater algae [[electronic resource]] : identification and use as bioindicators // Edward G. Bellinger and David C. Sigee
Pubbl/distr/stampa	Oxford ; ; Hoboken, NJ, : Wiley-Blackwell, c2010
ISBN	1-119-96432-6 1-282-68543-0 9786612685439 0-470-68955-2 0-470-68956-0
Descrizione fisica	1 online resource (285 p.)
Classificazione	WL 2010
Altri autori (Persone)	SigeeD. C
Disciplina	579.8176
Soggetti	Freshwater algae Freshwater algae - Ecology Indicators (Biology) Water quality biological assessment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Freshwater Algae; Contents; Preface; Copyright Acknowledgements; 1 Introduction to Freshwater Algae; 2 Sampling, Biomass Estimation and Counts of Freshwater Algae; 3 Algae as Bioindicators; 4 A Key to the More Frequently Occurring Freshwater Algae; Glossary; References; Index
Sommario/riassunto	Freshwater Algae: Identification and Use as Bioindicators provides a comprehensive guide to temperate freshwater algae, with additional information on key species in relation to environmental characteristics and implications for aquatic management. The book uniquely combines practical material on techniques and water quality management with basic algal taxonomy and the role of algae as bioindicators. Freshwater Algae: Identification and Use as Bioindicators is divided into two parts. Part I describes techniques for the sampling, measuring and observation of algae and then look
