Titolo	Law and Happiness / / Eric A. Posner, Cass R. Sunstein
Pubbl/distr/stampa	Chicago : , : University of Chicago Press, , [2010] ©2010
ISBN	1-282-53859-4 9786612538599 0-226-67602-1
Descrizione fisica	1 online resource (366 p.)
Disciplina	340/.11
Soggetti	Happiness Happiness - Economic aspects Well-being - Government policy Compensation (Law)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Contents -- Introduction to the Conference on Law and Happiness -- Measuring Well-Being for Public Policy: Preferences or Experiences? -- Happiness Inequality in the United States -- Who Is the Happy Warrior? Philosophy Poses Questions to Psychology -- Two Recommendations on the Pursuit of Happiness -- Hive Psychology, Happiness, and Public Policy -- Illusory Losses -- Pain and Suffering Awards: They Shouldn't Be (Just) about Pain and Suffering -- Death, Happiness, and the Calculation of Compensatory Damages -- Happiness Research and Cost-Benefit Analysis -- What Does Happiness Research Tell Us About Taxation? -- The Effect of Crime on Life Satisfaction -- Index
Sommario/riassunto	Since the earliest days of philosophy, thinkers have debated the meaning of the term happiness and the nature of the good life. But it is only in recent years that the study of happiness-or "hedonics"-has developed into a formal field of inquiry, cutting across a broad range of disciplines and offering insights into a variety of crucial questions of law and public policy. Law and Happiness brings together the best and most influential thinkers in the field to explore the question of what

makes up happiness-and what factors can be demonstrated to increase or decrease it. Martha Nussbaum offers an account of the way that hedonics can productively be applied to psychology, Cass R. Sunstein considers the unexpected relationship between happiness and health problems, Matthew Adler and Eric A. Posner view hedonics through the lens of cost-benefit analysis, David A. Weisbach considers the relationship between happiness and taxation, and Mark A. Cohen examines the role crime-and fear of crime-can play in people's assessment of their happiness, and much more. The result is a kaleidoscopic overview of this increasingly prominent field, offering surprising new perspectives and incisive analyses that will have profound implications on public policy.
