| Sommario/riassunto      | Models that explore vulnerability under various planned and unplanned conditions hardly exist. This title focuses on the vulnerability of societies in low lying coastal and deltaic environments to tropical                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

cyclonic storms and floods.
