Sommario/riassunto

Collaboration in Education establishes a needed framework for school/university collaborations that will be critical for others wishing to reproduce and participate in these partnerships. The contributors explore the elements necessary for sustainable collaboration in order to provide a frame of reference for others doing this work. This volume will help readers to ask the correct questions in thinking through school/university collaboration, such as: Does this collaboration make a true change in the way each parent organization operates in the future? Does it meet the needs of a m
