Sommario/riassunto	This book discusses the role of public policy in Article 81 of the EC Treaty. The Commission, and recently the Court of First Instance have said that the sole objective of Article 81 EC is consumer welfare. Many

competition lawyers and economists support this view. Writing in a crisp, plain style, Townley demonstrates that public policy considerations are still relevant in that provision. He also examines how and where they are currently considered and then suggests why, how and where this might be changed. The book explains how some of the most complex competition law cases can be understood
