residents; Appendix I Zip codes used for watershed and WTOW in employer study; Bibliography; Index

Sommario/riassunto

How can we build the institutions that will promote the cooperation needed to meet our intertwined environmental and economic needs? Efforts to meet these twin goals in New York City's watershed collaborations offer some guidance. The experience provides lessons in addressing scattered sources of pollution, encouraging environmentally compatible economic development, and coping with conflicts that are part of the collaboration process. It also yields insights into what we need to work effectively towards sustainable economic development. This book identifies many barriers to achievin
