Sommario/riassunto

A critical analysis of the films and career of George Cukor. George Cukor: Hollywood Master is the first book to focus on the career of director George Cukor, one of classic Hollywood's most important figures, with films such as The Women , Adam's Rib , Born Yesterday , Gaslight , and A Star is Born to his credit. The various essays in this volume, all written by prominent experts in the field, offer critical discussions of every feature film Cukor directed and include a rich trove of valuable information about their production histories. This is the first book devoted to one of the most beloved figures from the American cinema's golden age.
