(1987) -- The foundations of a free society (1988) -- The tide in the affairs of men (1988).
Sommario/riassunto	In this book, Robert Leeson and Charles Palm have assembled an amazing collection of Milton Friedman's best works on freedom. Even more amazing is that the selection represents only 1 percent of the 1,500 works by Friedman that Leeson and Palm have put online in a user-friendly format and an even smaller percentage if you include their archive of Friedman's audio and television recordings, correspondence, and other writings. This book and the larger online

collection are sorely needed and very welcome. Milton Friedman
deserves to be read in the original by generation after generation. --
