Verbiest and Tin Htoo Naing. The level of outward foreign direct investment (OFDI) flows from ASEAN Sommario/riassunto countries has increased rapidly in the past two decades. This book examines OFDI trends and patterns in the ASEAN region, including the impact of the ASEAN Economic Community. It also provides analyses of country policies affecting OFDI and the drivers of OFDI in Indonesia, Malaysia, Singapore and Vietnam. Myanmar is studied as an investment frontier for other ASEAN countries.<BR><BR>'The dynamic economies

of Southeast Asia have historically been very large recipients of foreign direct investment (FDI). As global capital markets have opened up, and

these economies have developed their technological and commercial capabilities, in more recent years Southeast Asia has emerged as a significant source of outward FDI both within the region and beyond. This important volume, by a group of leading regional scholars, offers a timely, comprehensive, accessible and authoritative analysis of this phenomenon.' - Hal Hill, H.W. Arndt Professor of Southeast Asian Economies, Arndt-Corden Department of Economics, Crawford School of Public Policy, Australian National University
