

1. Record Nr.	UNINA9910792981703321
Titolo	Safety of nuclear power plants : design
Pubbl/distr/stampa	Vienna, Austria : , : International Atomic Energy Agency, , 2016 ©2016
ISBN	1-5231-3029-6 92-0-130819-1
Descrizione fisica	1 online resource (75 pages)
Collana	IAEA Safety Standards Series, , 1020-525X ; ; Number SSR-2/1 (Rev. 1)
Disciplina	621.4835
Soggetti	Nuclear power plants - Design and construction - Safety measures
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	"This publication establishes requirements applicable to the design of nuclear power plants and elaborates on the safety objective, safety principles and concepts that provide the basis for deriving the safety requirements that must be met for the design of a nuclear power plant. It will be useful for organizations involved in design, manufacture, construction, modification, maintenance, operation and decommissioning of nuclear power plants, as well as for regulatory bodies. A review of Safety Requirements publications was commenced in 2011 following the accident in the Fukushima Daiichi nuclear power plant in Japan. The review revealed no significant areas of weakness and resulted in just a small set of amendments to strengthen the requirements and facilitate their implementation, which are contained in the present publication."--Publisher's description.
