Record Nr. UNINA9910793138503321 Autore Rhee Jennifer Titolo The robotic imaginary: the human and the price of dehumanized labor // Jennifer Rhee Minneapolis, : University of Minnesota Press, [2018] Pubbl/distr/stampa 9781452957401 (ebook) **ISBN** 1452957401 (ebook) Descrizione fisica 1 online resource Disciplina 303.48/3 Soggetti Robots - Moral and ethical aspects Robots - Social aspects Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Note generali Description based upon print version of record. Nota di bibliografia Includes bibliographical references and index. Nota di contenuto Caring: care labor, conversational artificial intelligence, and disembodied women -- Thinking: closed worlds, domestic labor, and situated robotics -- Feeling: emotional labor, sociable robots, and shameless androids -- Dying: drone labor, war, and the dehumanized. Sommario/riassunto The word robot—introduced in Karel apek's 1920 play R.U.R.—derives from rabota, the Czech word for servitude or forced labor. A century later, the play's dystopian themes of dehumanization and exploited labor are being played out in factories, workplaces, and battlefields. In The Robotic Imaginary, Jennifer Rhee traces the provocative and productive connections of contemporary robots in technology, film, art, and literature. Centered around the twinned processes of anthropomorphization and dehumanization, she analyzes the coevolution of cultural and technological robots and artificial intelligence, arguing that it is through the conceptualization of the human and, more important, the dehumanized that these multiple

spheres affect and transform each other .-- publisher.
