Sommario/riassunto	"As a fledgling republic, the United States implemented a series of trading outposts to engage indigenous peoples and to expand American interests west of the Appalachian Mountains. Under the authority of the executive branch, this Indian factory system was designed to strengthen economic ties between Indian nations and the United States, while eliminating competition from unscrupulous fur traders. In this detailed history of the Indian factory system, David Andrew Nichols demonstrates how Native Americans and U.S. government authorities sought to exert their power in the trading posts by using them as sites for commerce, political maneuvering, and diplomatic action"--

Sommario/riassunto	Amalendu Misra shows that while some eminent nationalist leaders were implacably hostile to Muslims, even wholly secular ones were uneasy with India's Muslim past and had a generally unfavourable disposition towards both Muslims and Islam. The book explicates this by focusing on the writings of Vivekananda, Gandhi, Nehru and Savarkar supported by a wealth of examples from a wide range of contexts. It argues that the views of these four prominent individuals were heavily shaped by British historiography as well as their respective visions of independent India. The author goes on to suggest how modern India needs to redefine itself to flourish as a genuinely secular democracy.
