**Sommario/riassunto**

This volume is part of the Ceramic Engineering and Science Proceeding (CESP) series. This series contains a collection of papers dealing with issues in both traditional ceramics (i.e., glass, whitewares, refractories, and porcelain enamel) and advanced ceramics. Topics covered in the area of advanced ceramic include bioceramics, nanomaterials, composites, solid oxide fuel cells, mechanical properties and structural design, advanced ceramic coatings, ceramic armor, porous ceramics, and more.

Sommario/riassunto

Gandhian Engagement with Capital: Perspectives of J C  
Kumarappa comprehensively presents the Gandhian ideas on economic  
development and political economy. Within this larger context, it  
focuses on the towering contributions of J C Kumarappa, the pioneer of  
the Gandhian model of economic development, and describes, from his  
standpoint, how the moral and political dispositions of Gandhism  
amount to a critique of capitalism. The book also covers in detail the  
major facets of Kumarappa's contribution to Gandhism: developing a  
non-mechanized, non-capitalist model of industrialization; presenting  
the holistic development approach; reflecting on the role of the state in  
facilitating a village-centric economy; and exploring the role of religion  
in developing the moral foundation of the Gandhian political economy.  
These reflect the historical context of Kumarappa's scholarship and his  
deep understanding of the various dimensions of Gandhian thought.  
The book highlights the debates within Gandhism and imparts a  
nuanced understanding of other Gandhian thinkers. Further, it presents  
several discourses in modern Indian political thought by analysing the  
interplay of narratives.
