

1. Record Nr.	UNINA9910793366103321
Titolo	Beyond PTSD : helping and healing teens exposed to trauma / / edited by Ruth Gerson, Patrick Heppell
Pubbl/distr/stampa	Washington, DC : , : American Psychiatric Association Publishing, , [2019] ©2019
ISBN	1-61537-217-2
Edizione	[First edition.]
Descrizione fisica	1 online resource (347 pages)
Disciplina	616.85/2100835
Soggetti	Stress Disorders, Traumatic Psychological Trauma - therapy Psychology, Adolescent Dangerous Behavior Psychosocial Support Systems Child Welfare
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Teens and traumatic stress : a toxic combination / Ruth Gerson -- Recognition and treatment / Patrick Heppell -- Aggression and criminal behavior / Jennifer Cabrera and Jessica Linick -- Suicide and self-injury / Gabrielle Carson -- Risky behavior and substance use / Sophie de Figueiredo and Moises Rodriguez -- School refusal and other academic and behavioral problems in school / Rachel Mandel -- Psychosis and dissociation / Ruth Gerson -- The implications of trauma for sexual and reproductive health in adolescents / Rebecca Weis, Aron Janssen, and Jeremy Wernick -- Trauma and youth with disabilities / Karen Rogers -- Acute psychiatric services / Schuyler Henderson and Blake Phillips -- School systems / Patrick Heppell -- Child welfare and juvenile justice / Patrick Heppell -- Medical providers / Alexis Kant Yetwin -- Families / Fadi Haddad, and Gabrielle Carson -- Improving services for traumatized adolescents through advocacy and systems change / Jeanette Scheid and Cynthia Chu.

2. Record Nr.	UNINA9910337487503321
Titolo	Controversies in the Management of Keratoconus / / edited by Adel Barbara
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-319-98032-7
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (394 pages)
Disciplina	617.719
Soggetti	Ophthalmology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- The Real Prevalence and Incidence of Keratoconus -- Progression of Keratoconus: Definition and Evaluation -- Collagen Corneal Cross- Linking Halts the progression of Keratoconus -- Epi on Collagen Corneal Cross-Linking -- Epi off Collagen Corneal Cross-linking -- Accelerated Collagen Corneal Cross-Linking -- Pulsed Accelerated Collagen Corneal Cross-Linking -- Customized Collagen Corneal Cross-Linking -- Collagen Corneal Cross-Linking in the Pediatric group -- Alternative methods for Halting the Progression of Keratoconus -- Photorefractive keratectomy for the treatment of Keratoconus and Forme Fruste Keratoconus -- Athens Protocol for the Treatment of Keratoconus -- Intrastromal Corneal Rings for the Treatment of Keratoconus -- Phakic Intra-ocular lenses for the Treatment of Keratoconus -- PKP Versus DALK.
Sommario/riassunto	This book presents new technologies which are available now for the rehabilitation of visual acuity in patients suffering from keratoconus and for arresting the progression of this frustrating disease. All these current treatment options in differing combinations aim to improve the quality of life of the patients and although successful, they are causing confusion for the ophthalmologists; what procedure to do and when? How to perform? Which combination of treatments to choose? Controversies in the Management of Keratoconus provides the widely used treatment options for keratoconus including collagen corneal cross -linking (CXL) covering all the available techniques, intrastromal

corneal ring segments (ICRS) , phakic intra-ocular lenses (IOLs), photorefractive keratectomy (PRK) combined or not with CXL penetrating keratoplasty (PK) and deep anterior lamellar keratoplasty (DALK). Each treatment is addressed by more than one author with different points of view in order to present the various approaches, the logic behind them and the most relevant clinical data available. A chapter by the editor tries to put some light on how to navigate among these controversies. This book will be of interest to trainees as well as the specialized ophthalmologists.
