

1. Record Nr.	UNINA9910793411303321
Titolo	Improving the American Community Survey : proceedings of a workshop // Daniel L. Cork, rapporteur
Pubbl/distr/stampa	Washington, District of Columbia : , : National Academies Press, , [2019] ©2019
ISBN	0-309-49003-0 0-309-49001-4
Descrizione fisica	1 online resource (211 pages)
Disciplina	304.62097
Soggetti	Demographic surveys - United States Metropolitan areas - United States Conference papers and proceedings. United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Introduction -- Administrative records, third-party data, and the American Community Survey -- Increasing American Community Survey participation through improved respondent communication -- References -- Appendixes.
Sommario/riassunto	"Since its origin 23 years ago as a pilot test conducted in four U.S. counties, the U.S. Census Bureau's American Community Survey (ACS) has been the focus of continuous research, development, and refinement. The survey cleared critical milestones 14 years ago when it began full-scale operations, including comprehensive nationwide coverage, and 5 years later when the ACS replaced a long-form sample questionnaire in the 2010 census as a source of detailed demographic and socioeconomic information. Throughout that existence and continuing today, ACS research and testing has worked to improve the survey's conduct in the face of challenges ranging from detailed and procedural to the broad and existential. This publication summarizes the presentations and discussion at the September 26-27, 2018, Workshop on Improving the American Community Survey (ACS),

sponsored by the U.S. Census Bureau. Workshop participants explored uses of administrative records and third-party data to improve ACS operations and potential for boosting respondent participation through improved communication"--Publisher's description.
