Note generali	First published 1995 by Westview Press.
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Reflecting recent re-examinations of the nature and purpose of the modern publicly held corporation, <i>Progressive Corporate Law</i> introduces the reader to alternative perspectives within the field. The contributors to this volume are loosely bound both by their rejection of the prevailing paradigm of the corporation as a public good designed exclusively for the maximization of private profit and by their affirmative goal of designing corporate laws that accord better with the corporation's political and social realities. The resulting series of visions emphasizes communitarian themes of efficiency and morality of responsibility, altruism, and unity within the corporate form as well as between the corporation and the broader society. <i>Progressive Corporate Law</i> is important reading for business executives, lawyers, policymakers, and others who are concerned with the role of corporations in modern life. Designed to act as a springboard for stimulating discussion, it will be a valuable supplement to courses and seminars in corporate law and business ethics.
