| Sommario/riassunto      | Volume 37 of Research in Personnel and Human Resources<br>Management contains six original scholarly monographs written by<br>thought leaders in the field of human resources management. This<br>volume focuses on human resources branding, innovation and<br>creativity in human resources management, high involvement work<br>systems, work home boundary permeability, the emerging concept of  |

grit in human resources management, and data visualization issues in human resources management.
