

1. Record Nr.	UNISA996485667603316
Titolo	Brain informatics : 15th international conference, BI 2022, Padua, Italy, July 15-17, 2022, proceedings / / Mufti Mahmud [and four others], editors
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	3-031-15037-6
Descrizione fisica	1 online resource (390 pages)
Collana	Lecture Notes in Computer Science ; ; 13406
Disciplina	610.28563
Soggetti	Artificial intelligence - Medical applications Human information processing Neural networks (Computer science)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.

2. Record Nr.	UNINA9910793750603321
Autore	Citow Jonathan S
Titolo	Neurosurgery Oral Board Review // by: Citow, Jonathan S., Spinner, Robert J., Puffer, Ross C.
Pubbl/distr/stampa	New York, New York : , : Thieme, , [2020] ©2020
ISBN	1-63853-666-X 1-68420-127-6
Edizione	[Third edition.]
Descrizione fisica	1 online resource (378 pages) : illustrations
Disciplina	617.480076
Soggetti	Nervous system - Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	<p>"The certification by the American Board of Neurological Surgery is considered as the gold standard for neurosurgeons. The final hurdle in accomplishing the certification process is the challenging oral examination. In 2017, the format of the ABNS oral exam was revised to make it more relevant, rigorous, and reflective of recent advances in neurosurgery. Therefore, in the third edition of Neurosurgery Oral Board Review the authors have expanded on the widely acclaimed prior editions. The user-friendly book is packed with all the essentials that are needed to prepare for the exam. It can be used either for a rapid review a few days prior to the exam or as an outline to organize study preparation. Each chapter starts with a collection of salient facts, followed by cases that simulate the actual oral board experience. Key Highlights Eighty entirely new, first-rate cases supplemented by a large number of images In-depth focus on the current state-of-the-art in neurosurgery, including endovascular and functional approaches, minimally-invasive brain and spine procedures, arthrodesis, etc. About 200 outstanding anatomic drawings and radiographs to enhance the ability to visualize complex concepts Complications and emergency procedures discussed in greater detail This quintessential pocket-sized oral board review has earned its place as a trusted study companion in</p>

the past 15 years. The new and improved edition will continue to play an invaluable role for neurosurgeons prepping for this challenging final stage of ABNS certification"--
