Edizione	[Third edition.]
Descrizione fisica	1 online resource (641 pages)
Disciplina	617.8
Soggetti	Audiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	"Adult Audiologic Rehabilitation, Third Edition is an advanced textbook for doctoral level audiology students that focuses solely on adults with a completely international perspective. It is the only advanced text to meet the need for the high level of preparation required for doctoral level training. It is also an essential resource for practicing clinicians looking for a complete reference on the latest techniques and technologies. With ever changing technology and new methodologies in client care, the third edition of Adult Audiologic Rehabilitation is a critical resource to audiology education. The book covers definitions of audiologic rehabilitation, an overview of the area, psychosocial impact of hearing loss, assessment strategies, current technologies, treatment methodologies, e-technologies, research needs, and special issues in audiologic rehabilitation. It has been deliberately structured to move the reader from introduction, to specific details of the specialty of audiologic rehabilitation, to providing insights into characteristics of this patient population, and thence to a framework for assessment and treatment of the impact of hearing loss"--
