

1. Record Nr.	UNINA9910793813503321
Autore	Haenssngen Marco J.
Titolo	Interdisciplinary qualitative research in global development : a concise guide / / by Marco J. Haenssngen (University of Warwick, UK)
Pubbl/distr/stampa	Bingley, England : , : Emerald Publishing, , [2020] ©2020
ISBN	1-83909-229-7 1-83909-231-9
Descrizione fisica	1 online resource (232 pages)
Collana	Emerald points
Disciplina	001.42
Soggetti	Interdisciplinary research Qualitative research World health - Research - Methodology Health & Fitness - Health Care Issues Research methods: general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Chapter 1. Introduction -- Chapter 2. The big picture: an overview of research designs -- Chapter 3. Data collection methods -- Chapter 4. Sampling methods -- Chapter 5. Data analysis methods -- Chapter 6. Presenting and reporting qualitative research -- Chapter 7. Qualitative research issues -- Chapter 8. Summary and reflections on overcoming disciplinary friction -- Appendix 1. Sample answers for the activities -- Appendix 2. Antibiotics and activity spaces: project description -- Appendix 3. Samples (editable files available online) -- Appendix 4. Suggested reading and resources -- References -- Index.
Sommario/riassunto	There is no shortage of books on qualitative research methods, but none effectively equips researchers and practitioners for the interdisciplinary and increasingly complex, interconnected, and contested field of global development research. How can we choose the best method to answer our research question? How can we align disciplinary expectations of what good qualitative research is? How do we avoid pitfalls of extractive research practices amidst calls to decolonise global development? Interdisciplinary Qualitative Research

in Global Development provides this sorely needed practical introduction, and it does so in a concise format that can easily be taken into the field. Drawing on over a decade of experience in interdisciplinary education, research, and policy-relevant work, Marco J. Haenssger fills these chapters with examples and exercises that feature real-life material from current interdisciplinary global development research projects. In the process, he addresses the common concerns of practitioners and students and primes readers for the discussions that are likely to arise when the social and natural sciences meet. For its practical approach, its wealth of real-world examples, and its unique focus on interdisciplinary work, this book is a must-have for anyone who is engaging in interdisciplinary qualitative research, and especially for those doing so for the first time.

2. Record Nr.	UNINA9910796435103321
Autore	Nguyen Gateff Helene
