Livello bibliografico	Monografia
Sommario/riassunto	"This book identifies the 50 key scientific articles in the field of acute and emergency surgery and explains, via expert reflections and editorial perspectives, why these papers are important. Identifying those influential contributors who have shaped the practice of modern acute surgery, the book covers surgical emergencies in the areas of esophageal, gastric, duodenal, intestinal, biliary, pancreatic, anorectal and general surgery. This an invaluable reference for trainees, fellows, and surgeons studying for exams, as well as for seasoned surgeons who want to stay current in this field"--
