Edizione	[1st edition.]
Descrizione fisica	1 online resource (194 pages) : illustrations
Disciplina	332.4
Soggetti	Cryptocurrencies Digital money Finance Banks and banking Money - Technological innovations Financial institutions - Technological innovations
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Fintech is challenging banks and squeezing all our financial transactions onto a mobile screen! Should we be worried? We make payments via PayPal or Paytm, shop on Amazon or Flipkart, book accommodation on Airbnb or Oyo and call a cab using Uber or Ola apps. The big tech companies are taking care of all our finances virtually while new technologies such as artificial intelligence (AI), internet of things (IoT), blockchain, big data, 5G and quantum computing promise to raise a new storm in the future of finance. Fintech Future is the story of technology disrupting finance - from coin to bitcoin, banknote to cloud and stodgy old banks to AI - viewed from the perspective of whether it helps make the world a better place.
