Sommario/riassunto	"There are numerous books on STEAM, but most are either arts and crafts project books designed for children or high-level books that can be weighty and inaccessible for new teachers. As an artist/educator who has taught art and technology for years, Tim Needles brings a fresh and unique approach to these topics, focusing on creativity, innovation and collaboration. This accessible and engaging book offers creative ideas for blending arts and STEM learning (STEAM). It covers the fundamentals of STEAM, with project ideas and best practices, while providing insight from educators in the field. Technologies covered

include: coding, robotics, 3D printing, virtual and augmented reality, photography, video, animation and digital drawing. In addition, the book addresses several different approaches to bringing STEAM learning to the next level, such as collaboration, global learning, project-based learning, makerspaces and social-emotional learning"--

Sommario/riassunto

Long description: Am Beispiel von Leipzig zeigt Philipp Schäfer, dass die Allgegenwärtigkeit des Provisorischen im langen Sommer der Migration 2015 nicht das Ergebnis einer jähen Krise war, sondern das Resultat langjähriger Auseinandersetzungen rund um Fragen des Umgangs mit Geflüchteten vor Ort. Anhand von zahlreichen Interviews, Beobachtungen und politischen Dokumenten führt seine soziologische Untersuchung vor Augen, wie die lokale Regierung von Migration Vorläufigkeit institutionalisierte und es so erlaubte, Geflüchtete räumlich, zeitlich und moralisch auf Distanz zu halten. <https://creativecommons.org/licenses/by/4.0/>
