Disciplina	355.033573
Soggetti	National security - United States - Decision making United States Military policy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"In Anatomy of Failure, Harlan Ullman asserts that presidents and administrations have consistently failed to use sound strategic thinking and lacked sufficient understanding of the circumstances prior to deciding whether or not to employ force. He analyses the records of presidents from John F. Kennedy to Barack Obama and Donald Trump in using force or starting wars. His recommended solutions begin with a "brains-based" approach to sound strategic thinking to address one of the major causes of failure--the inexperience of too many of the nation's commanders-in-chief. Ullman reinforces his argument through the use of autobiographical vignettes that in some cases making public previously unknown history."--Provided by publisher.
