Sommario/riassunto	"A Companion to Religious Minorities in Early Modern Rome investigates the lives and stories of the many groups and individuals in Rome, between 1500 and approximately 1750, who were not Roman (Latin) Catholic. It shows how early modern Catholic people and institutions in Rome were directly influenced by their interactions with other religious traditions. This collection reveals the significant impact of Protestants, Muslims, Jews, and Eastern Rite Christians; the influence of the many transient groups and individual travelers who passed through the city; the unique contributions of converts to Catholicism, who drew on the religion of their birth; and the importance of intermediaries, fluent in more than one culture and religion"--

#### Sommario/riassunto

This anthology explores tensions between the individualistic artistic ideals and the collective industrial realities of contemporary cultural production with eighteen all-new chapters presenting pioneering empirical research on the complexities and controversies of comics work. Art Spiegelman. Alan Moore. Osamu Tezuka. Neil Gaiman. Names such as these have become synonymous with the medium of comics. Meanwhile, the large numbers of people without whose collective action no comic book would ever exist in the first place are routinely overlooked. *Cultures of Comics Work* unveils this hidden, global industrial labor of writers, illustrators, graphic designers, letterers, editors, printers, typesetters, publicists, publishers, distributors, translators, retailers, and countless others both directly and indirectly involved in the creative production of what is commonly thought of as the comic book. Drawing upon diverse theoretical and methodological perspectives, an international and interdisciplinary cohort of cutting-edge researchers and practitioners intervenes in debates about cultural work and paves innovative directions for comics scholarship.
