Descrizione fisica	1 online resource (316 pages)
Disciplina	616.55
Soggetti	Vitiligo
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Vitiligo is a disorder having a significant impact in dark-skinned individuals. Along with the historical, cultural, and psychological aspects of the disease the multifactorial pathogenesis of this disorder is discussed in detail with special emphasis on the newer hypotheses proposed in the causation. Descriptions of the clinical aspects of the disease are supplemented with clinical photographs covering the latest therapeutic and surgical treatment options. Nonconventional treatments such as cosmetic camouflage and tattooing are also discussed. Topics of controversy such as the role of diet, patient selection for surgery, and so on, are covered in depth.
