

1. Record Nr.	UNINA9910794463003321
Autore	Sapienza Christine M.
Titolo	Voice disorders // Christine Sapienza, Bari Hoffman
Pubbl/distr/stampa	San Diego, California : , : Plural Publishing, Inc., , [2022] Â©2022
ISBN	1-63550-262-4
Edizione	[Fourth ediion.]
Descrizione fisica	1 online resource (517 pages) : illustrations
Disciplina	616.8556
Soggetti	Voice disorders
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Respiratory Anatomy and Physiology -- Laryngeal Anatomy and Physiology -- Vocal Health -- Evaluation -- Vocal Pathology -- Neurologically Based Voice Disorders -- Vocal RehabilitationBiofeedback Techniques -- Management: Phonosurgery -- Team Management of Head and Neck Cancer -- Vocal Performance -- Drug Types and Effects on Voice -- Immune System Response to Diseases and Its Impact on -- Laryngeal Reflexes
Sommario/riassunto	With Voice Disorders, Fourth Edition, authors Christine Sapienza, PhD and Bari Hoffman, PhD have created a comprehensive package for learning. The authors uniquely blend voice science with voice treatments ranging from traditional interventions to recent advances in cellular therapies, muscle strength training, and treatments for special populations. The text has been extensively updated with clinical evidence-based information and comes with videos, audio files, and case studies. This fourth edition offers a comprehensive combined study of the respiratory, laryngeal, and neurological subsystems for voice. Therapy approaches are categorized in terms of type, such as physiologic, combined modality, and hygienic. The new edition expands the approaches to voice therapy, and better defines clinical decision making with information about humanistic communication strategies, adherence, and the multitude of variables that influence patient outcomes. New to the Fourth Edition: The anatomical illustrations are now in color Updated throughout to reflect the current

state of research in the evaluation and treatment of voice and upper airway disorders Many new references depicting evidence-based outcomes Updated clinical guidelines and position statements A thoroughly revised chapter on voice therapy Extensive content added on gender affirmation: the role of the SLP along with various evaluation and therapy approaches More laryngeal images and endoscopic examinations Expanded coverage of contemporary phonosurgery approaches and the role of the SLP pre- and post-surgery Extensively expanded material on head and neck cancer and alaryngeal communication
