

1. Record Nr.	UNINA9910794479003321
Autore	Ellenberger Henri F.
Titolo	Ethnopsychiatry // Henri F. Ellenberger ; edited by Emmanuel Delille ; translated by Jonathan Kaplansky
Pubbl/distr/stampa	Montreal & Kingston ; ; London ; ; Chicago : , : McGill-Queen's University Press, , [2020] Â©2017
ISBN	0-2280-0446-2 0-2280-0445-4
Descrizione fisica	1 online resource (369 pages)
Collana	McGill-Queen's/Associated Medical Services Studies in the History of Medicine, Health, and Society ; ; 56
Disciplina	155.82
Soggetti	Ethnopsychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Front Matter -- Contents -- Preface to the English Edition: Decentralizing the Main Narrative of Transcultural Psychiatry -- Acknowledgments -- Part One -- From Exotic Psychiatry to the University Networks of Cultural Psychiatry: Toward a History of Ethnopsychiatry as a Corpus of Knowledge in a Transitional Period (1945–1965) -- Part Two -- Ethnopsychiatry [1965–1967] -- Theoretical and General Ethnopsychiatry -- Descriptive and Clinical Part -- Notes -- Bibliography -- Part Three -- Outline of Updated Booklets Published in 1978 in the <i>Traité de psychiatrie</i> of the <i>Encyclopédie médico-chirurgicale (EMC)</i> by Henri Ellenberger, Raymond Prince, Brian Murphy, and Michel Tousignant -- Outline of an Unfinished Book by Henri Ellenberger, Excerpts of Which Have Been Published in Journals -- “A Case of Peyote Drug Addiction”: Unpublished Course Notes by Henri Ellenberger -- Correspondence between Henri Ellenberger and Georges Devereux (1954–1974) -- Timeline: Reference Points for a Contextual History of Ethnopsychiatry (Emmanuel Delille) -- Index
Sommario/riassunto	What is the relationship between culture and mental health? Is mental illness universal? Are symptoms of mental disorders different across social groups? In the late 1960s these questions gave rise to a groundbreaking series of articles written by the psychiatrist Henri

Ellenberger, who would go on to publish *The Discovery of the Unconscious: The History and Evolution of Dynamic Psychiatry* in 1970. Fifty years later they are presented for the first time in English translation, introduced by historian of science Emmanuel Delille. Ethnopsychiatry explores one of the most controversial subjects in psychiatric research: the role of culture in mental health. In his articles Ellenberger addressed the complex clinical and theoretical problems of cultural specificity in mental illness, collective psychoses, differentiations within cultural groups, and biocultural interactions. He was especially attuned to the correlations between rapid cultural transformations in postwar society, urbanization, and the frequency of mental illness. Ellenberger drew from a vast and varied primary and secondary literature in several languages, as well as from his own findings in clinical practice, which included work with indigenous peoples. In analyzing Ellenberger's contributions Delille unveils the transnational and interdisciplinary origins of transcultural psychiatry, which grew out of knowledge networks that crisscrossed the globe. The book has a rich selection of appendices, including Ellenberger's lecture notes on a case of peyote addiction and his correspondence with anthropologist and psychoanalyst Georges Devereux. These original essays, and their masterful contextualization, provide a compelling introduction to the foundations of transcultural psychiatry and one of its most distinguished and prolific researchers.
