

1. Record Nr.	UNINA9910794624603321
Autore	D'mello Bruno Joseph
Titolo	JavaScript and JSON Essentials
Pubbl/distr/stampa	Packt Publishing
Descrizione fisica	1 online resource (226 p.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Use JSON for building web applications with technologies like HTML, JavaScript, Angular, Node.js, Hapi.js, Kafka, socket.io, MongoDB, Gulp.js, and handlebar.js, and others formats like GEOJSON, JSON-LD, MessagePack, and BSON. Key Features Use JSON with trending technologies like Angular, Hapi.js, MongoDB, Kafka, and Socket.io. Debug, validate, and format JSON using developer toolkits, JSONLint, and JSON Editor Online. Explore other JSON formats like GeoJSON, JSON-LD, BSON, and MessagePack. Book Description JSON is an established and standard format used to exchange data. This book shows how JSON plays different roles in full web development through examples. By the end of this book, you'll have a new perspective on providing solutions for your applications and handling their complexities. After establishing a strong basic foundation with JSON, you'll learn to build frontend apps by creating a carousel. Next, you'll learn to implement JSON with Angular 5, Node.js, template embedding, and composer.json in PHP. This book will also help you implement Hapi.js (known for its JSON-configurable architecture) for server-side scripting. You'll learn to implement JSON for real-time apps using Kafka, as well as how to implement JSON for a task runner, and for MongoDB BSON storage. The book ends with some case studies on JSON formats to help you sharpen your creativity by exploring futuristic JSON implementations. By the end of the book, you'll be up and running with all the essential features of JSON and JavaScript and able to build fast, scalable, and efficient web</p>

applications. What you will learn

- Use JSON to store metadata for dependency managers, package managers, configuration managers, and metadata stores
- Handle asynchronous behavior in applications using callbacks, promises, generators, and async-await functions
- Use JSON for Angular 5, Node.js, Gulp.js, and Hapi.js
- Implement JSON as BSON in MongoDB
- Make use of JSON in developing automation scripts
- Implement JSON for realtime using socket.io and distributed systems using Kafka

Who this book is for

If you're a web developer with a basic understanding of JavaScript and want to write JSON data, integrate it with RESTful APIs to create faster and scalable applications, this book is for you.

2. Record Nr.	UNINA9910818019403321
Autore	Hyslop Gwendolyn
Titolo	A grammar of Kurtokha // by Gwendolyn Hyslop
Pubbl/distr/stampa	Leiden ; ; Boston : , : Brill, , [2017]
ISBN	90-04-32874-2
Descrizione fisica	1 online resource (474 pages) : illustrations
Collana	Brill's Tibetan studies library ; Languages of the greater Himalayan region ; v. 5/18.
Disciplina	495.4
Soggetti	Kurtokha language - Grammar Language and languages Tibeto-Burman languages - Grammar Bhutan
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preliminary Material -- Introduction -- Contrastive Phonology -- Non-contrastive Phonology -- Word Classes and Word-formation Processes -- Lexicon -- Syntactic Overview -- The Noun Phrase -- Post-head Nominal Modifiers -- Proforms -- Case-Marking -- The Verbal Complex -- Copulas and Non-verbal Predication -- Nominalization -- Tense/Aspect -- Evidentiality, Mirativity, and Related Categories -- Multi-clause Constructions -- Negation and Non-declarative Speech Acts -- Rhetorical Devices -- References -- Appendix A: Texts --

Appendix B: Abbreviations and Typological Features -- Appendix C: A Guide to the Examples -- Appendix D: Database of Recordings and Speakers from which Examples are drawn -- Index.

---

Sommario/riassunto

A grammar of Kurtöp is the first descriptive grammar of Kurtöp, a threatened language of Bhutan, and the only reference grammar of any East Bodish language. The East Bodish languages are a relatively unstudied branch of the larger Tibeto-Burman family, situated in Bhutan and neighbouring regions in Tibet and Arunachal Pradesh. The chapters introduce the language and the people who speak in a historical context and then go on to detail the synchronic and diachronic phonology, discuss word classes and clause structure, morphosyntax and syntax, and illustrate rich system of evidentiality and related categories. The book will be of interest to Tibeto-Burmanists, historical linguists and those interested in the prehistory of the eastern Himalayas, and to typologists.
