Titolo	Language impairment in multilingual settings : LITMUS in action across Europe // edited by Sharon Armon-Lotem, Kleantes K. Grohmann
Pubbl/distr/stampa	Amsterdam, Netherlands ; ; Philadelphia, Pennsylvania : , : John Benjamins Publishing Company, , [2021] ©2021
Descrizione fisica	1 online resource (341 pages)
Collana	Trends in Language Acquisition Research ; ; v.29
Disciplina	618.92855
Soggetti	Children - Language Specific language impairment in children Language disorders in children Bilingualism in children
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"COST Action IS0804 "Language Impairment in a Multilingual Society: Linguistic Patterns and the Road to Assessment" aimed to profile bilingual specific language impairment (biSLI) by establishing a network for research on the linguistic and cognitive abilities of bilingual children with SLI across different migrant communities. A battery of tools for Language Impairment Testing in Multilingual Settings (LITMUS) was designed within the Action to achieve these aims, including the Parental Bilingual Questionnaire, a Sentence Repetition task, Crosslinguistic Lexical Tasks, the Multilingual Assessment Instrument for Narratives, and two nonword repetition tasks that are not language-specific. This volume presents research on one or more of the LITMUS tasks in bilingual children with typical language development (Part I: 'LITMUS in Typical Bilingual Development') and exploits the LITMUS testing battery for identifying possible language impairment (Part II: 'Using LITMUS for Identifying SLI (DLD)')"--
