

1. Record Nr.	UNINA9910794646903321
Autore	Salvagno Lenny
Titolo	The neglected goat : a new method to assess the role of the goat in the English Middle Ages // Lenny Salvagno
Pubbl/distr/stampa	Oxford : , : Archaeopress Publishing Ltd., , [2020] ©2020
ISBN	1-78969-630-5
Descrizione fisica	1 online resource (888 pages)
Disciplina	330.942021
Soggetti	Animal remains (Archaeology) - England - Identification - Methodology Goats - England - History - To 1500
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Contents -- 1 Introduction and background -- 1.1 Research questions and book structure -- 1.1.1 Description of the structure of this book -- 1.2 Taxonomy -- 1.3 Methodological background -- 1.3.1 Morphological approach -- 1.3.1.1 Post-cranial bones -- 1.3.1.2 Mandibular teeth -- 1.3.2 Non morphological approaches -- 1.3.3 Biometrical approach -- 1.3.4 Conclusions -- 1.4 The medieval English goat: setting the scene -- 1.4.1 The historical evidence for the medieval goat -- 1.4.2 Zooarchaeological evidence for the medieval goat -- 2 Study of the morphological traits and biometry of the modern material -- 2.1 Methods -- 2.1.1 Introduction -- 2.1.2 Morphological Approach -- 2.1.3 Biometrical approach -- 2.1.4 The Recording Protocol -- 2.2 Materials -- 2.3 Inter-Observer Error and Intra-Observer Error: consistency tests -- 2.3.1 Reliability Tests -- 2.3.2 Inter-Observer Error: Inter Correlation Coefficient -- 2.3.3 Intra-Observer Error: Inter Correlation Coefficient -- 2.3.4 Conclusions -- 2.4 Morphological results -- 2.4.1 Reliability of the morphological diagnostic traits -- 2.4.2 Influence of sex -- 2.4.3 Influence of age -- 2.4.4 Conclusions -- 2.5 Biometric results -- 2.5.1 Descriptive Statistics -- 2.5.2 Bivariate plots -- 2.5.3 Allometric shape analysis as expressed by Biometrical Indices -- 2.5.4 Statistical Analyses: Mann Whitney U test and Multivariate Approaches -- 2.5.5 Mann Whitney U-test and Manova -- 2.5.6 Discriminant Analysis -- 2.5.7 Principal

Component Analysis -- 2.5.8 Conclusions -- 2.6 Discussion of the study of the modern material: morphological and biometrical approach -- 3 Reevaluation of the role of the goat in medieval England -- 3.1 The archaeological sites -- 3.2 King's Lynn (AD 1050-1800) -- 3.2.1 Introduction -- 3.2.2 Archaeological Investigations -- 3.2.3 Activities at King's Lynn. 3.2.4 What does the zooarchaeological evidence say? -- 3.2.5 Reevaluation of King's Lynn sheep/goat bone material: methodology -- 3.2.6 Morphological Approach: Results -- 3.2.7 Shape analysis as expressed by Biometrical Indices -- 3.2.8 DA predictions of the sheep/goat assemblage from King's Lynn -- 3.2.9 Discriminant Analysis on the King's Lynn material in toto -- 3.2.10 Discussion -- 3.2.10.1 An assessment of the new methodology -- 3.2.10.2 The King's Lynn case study -- 3.3 Medieval and Post-medieval Flaxengate (c. late 11th century AD -- late 14th - middle 16th century AD) -- 3.3.1 Introduction -- 3.3.2 Archaeological Investigations -- 3.3.3 What does the zooarchaeological evidence say? -- 3.3.4 Reevaluation of Flaxengate sheep/goat bone material: methodology -- 3.3.5 Morphological Approach: Results -- 3.3.6 Shape analysis as expressed by Biometrical Indices -- 3.3.7 Discriminant Analysis -- 3.3.8 Discussion -- 3.3.8.1 An assessment of the new methodology -- 3.3.8.2 The Flaxengate case study -- 3.4 Woolmonger /Kingswell Street, Northampton (c. 1000-1550 AD) -- 3.4.1 Introduction -- 3.4.2 Archaeological Investigations -- 3.4.3 Trade activities at Northampton -- 3.4.4 What does the zooarchaeological evidence say? -- 3.4.5 Reevaluation of Woolmonger/ Kingswell Street sheep/goat bone material: methodology -- 3.4.6 Morphological Approach: Results -- 3.4.7 Shape analysis as expressed by Biometrical Indices -- 3.4.8 Discriminant Analysis -- 3.4.9 Discussion -- 3.4.1.1 An assessment of the new methodology -- 3.4.1.2 The Woolmonger/Kingswell Street case study -- 3.5 Discussion of the application of the new methodology on Archaeological assemblages -- 3.6 Reassessment of the role of the goat in medieval English husbandry and economy: a beginning. -- 3.7 Future developments: the way is paved -- 4 Conclusions -- References -- Appendices.

Appendix I: The importance of the goat in the human past -- 1.1 The domestication of the goat: background, dynamics, place and time -- 1.2 The wild progenitor of the domestic goat -- 1.3 Differences and similarities with the sheep -- Appendix II: Bland and Altman plots as integration of the ICC (Inter-Observer Error) -- Appendix III: Descriptive statistics for the modern sheep and goat material -- Appendix IV: Assumptions for Discriminant Analysis (DA) and Principal Component Analysis (PCA) -- Appendix V: PCA, a Brief Glossary -- Appendix VI: DA: how to use it to predict new archaeological cases.

Sommario/riassunto

Based on a combination of morphological and biometrical analyses, this book provides a new, objective and transparent methodology to distinguish between sheep and goat post cranial bones in the archaeological record. Additionally, on the basis of the newly proposed approach, it reassesses the role of the goat in medieval England.
