Nota di contenuto	Introduction : New way of war -- Shifts in American war policy -- Government's role in drone warfare -- Military, markets, and money -- Inside the military machine -- Drones for corporate profit and domestic surveillance -- Influential opinions : think tanks and pundits -- In the news -- Sites of resistance : international law and social movements.
Sommario/riassunto	Drone Nation provides historical context for the rise and acceptance of drone warfare by the United States and examines likely impacts of drone use. This gradual and important change signals a major departure from the traditional embrace of international law, military ethics, and domestic privacy.
