1.	Record Nr.	UNINA9910794786703321
	Titolo	Advances in group processes . Vol. 34 / / edited by Shane R. Thye, Edward J. Lawler
	Pubbl/distr/stampa	Bingley : , : Emerald Publishing, , 2017
	ISBN	1-78743-439-7 1-78743-192-4
	Edizione	[First edition.]
	Descrizione fisica	1 online resource (240 pages) : illustrations
	Collana	Advances in group processes ; ; vol. 34
	Disciplina	302
	Soggetti	Social groups Social interaction Psychology - Social Psychology Social, group or collective psychology
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Includes index.
	Nota di bibliografia	Includes bibliographical references.
	Nota di contenuto	Prelims -- How status spreads -- Juvenile delinquency, criminal sentiments, and self-sentiments: exploring a modified labeling theory proposition -- Assessing the impact of status information conveyance on the distribution of negative rewards: a preliminary test and model -- The status value of age and gender: modeling combined effects of diffuse status characteristics -- Measuring the impact of status manipulations using Monte Carlo simulations -- Social structure and cognitive orientation -- Self-in-self, mind-in-mind, heart-in-heart: the future of role-taking, perspective taking, and empathy -- The situated durability of values -- Perceiving groups during computer-mediated communication -- Index.
	Sommario/riassunto	Advances in Group Processes publishes theoretical analyses, reviews and theory-based empirical chapters on group phenomena. The series adopts a broad conception of œgroup processes. This includes work on groups ranging from the very small to the very large, and on classic and contemporary topics such as status, power, trust, justice, social influence, identity, decision-making, intergroup relations and social networks. Previous contributors have included scholars from diverse fields including sociology, psychology, political science, economics,

business, philosophy, mathematics and organizational behavior. Volume 34 brings together papers that address theoretical and empirical issues related to the spread of status value, reward expectations theory, age and gender effects, and measuring the impact of status manipulations. Other contributions examine cognitive orientation, perspective taking and empathy, the stability of values, and group perceptions during computer-mediated communication. Overall, the volume includes papers that reflect a wide range of theoretical approaches from leading scholars who work in group processes.
