Sommario/riassunto	"This collection investigates the complex and myriad relations between identity and borders in an increasingly globalized world. The movement towards a borderless world, bolstered by an unprecedented development in information and communication technology, forces us to rethink traditional notions of singular identity, and directs us towards the need for engaging and negotiating with the world in multiple ways. Employing a wide range of critical approaches to works that examine and explore the contested terrain of globalization and the hotly disputed arena of borders, the essays brought together here offer innovative perspectives through which issues of borders, globalization and identity can be negotiated. Straddling various genres, this collection represents an investigation of the conflicting relationship between identity and borders in the contemporary globalized world."--
