Sommario/riassunto	In A Transnational Human Rights Approach to Human Trafficking: Empowering the Powerless , Yoon Jin Shin proposes an innovative approach to empower individuals victimized by human trafficking, one of the most serious human rights challenges in today's world of globalization and migration. Based on thorough empirical research and extensive comparative studies, Shin illuminates complex realities of migrant individuals experiencing trafficking situations and the problems of the current anti-trafficking regime driven by destination countries' self-interest in crime and border control. Shin suggests an alternative transnational human rights framework, in which victimized migrants, who have been treated as passive targets of victim-witness

protection or immigration regulation, finally attain their true voices as empowered rights-holders and effectively exercise their human, civil, and labor rights. Shin received the 2014-2015 Ambrose Gherini Prize, the highest prize awarded in the field of International Law by Yale Law School, for her doctoral dissertation on which this book is based.

1. A roadmap to economic violations of sport rules and the law -- 2. Sport manipulations: breaching the sport rules to gain advantage -- 3. Economic dysfunctions of sport: violating managerial rules and the law -- 4. Economic distortions: infringing human rights in sport -- 5. Conclusion.

**Sommario/riassunto**

This Palgrave Pivot provides a comprehensive overview of economic

aspects to criminal behaviour in sport. It addresses manipulations, dysfunctions, distortions and crimes triggered by economic interests or pure greed in sports, and challenges the governance of this important industry. Topics covered include hazing, sabotage, refereeing bias, technological manipulations, tanking, bad management, financial doping, ticket touting, circumventing the law through sport, discrimination and child labour. The book is divided into three volumes. Volume I covers those economic manipulations that breach sports rules, sporting integrity, violate managerial rules and the law, and infringe human rights in sport. It builds up a typology of sport manipulations which makes sense from an economic standpoint, not only from a sporting or judicial perspective. Volumes II and III (available separately) focus on Corruption and Economic Crime in Sport, respectively. This book will be of interest to students, researchers and journalists in sports science, sports management and sports economics.
