| Sommario/riassunto | This volume is the second of the series 'Corollaria Crustumina' aimed at the publication of conference proceedings, doctoral theses and specialist studies concerning the Latin settlement of Crustumerium (Rome) and Italian protohistory. It contains multidisciplinary papers of an international group of archaeologists discussing new fieldwork data and theories of broad relevance to Italian archaeology and with specific relevance to the study of Crustumerium's settlement, cemeteries and material culture in light of the site's cultural identity. |
