Nota di bibliografia "The fifth edition of Professional Issues in Speech-Language Pathology Sommario/riassunto and Audiology is a singularly comprehensive resource for students in speech-language pathology and audiology as they prepare for their professional careers. It also serves as a timely source of information for both practitioners and faculty, serving as an updated "state of the professions" desk reference. The book is divided into four major sections: overview of the professions; employment issues; settingspecific issues; and working productively. The information presented in each section provides the reader with a better understanding and a new

perspective on how professional issues have been affected by both internal and external influences in recent years including technological advances, demographic shifts, globalization, and economic factors. Chapter authors are recognized subject matter experts, providing a blend of both foundational and cutting-edge information in areas such as evidence-based practice, ethics, finding a job, interprofessional practice, service delivery in healthcare and education, technology, cultural competence, supervision, and leadership"--
