## Sommario/riassunto

"The acceleration of globalization and the rise of China are among the most important events in the 21st century. Globalization is a double-edged sword for human society. There is a strong belief among the international community that global governance is the most effective solution to most of our global problems. In this volume Chinese scholars contribute to the study of global governance by exploring ways to effectively face the tough challenges brought by globalization, such as economic prosperity, environmental issues, and global security"--
