Livello bibliografico	Monografia
Sommario/riassunto	"The U.S.-China Trade War draws on data from three national surveys, three content analyses, computational topic modeling, and rhetoric analysis to shed light on the twenty-first century's most high-profile contest over global trade so far. Through diverse empirical studies, the contributors examine the effects of news framing and agenda-setting during the battle of words and tariffs in both Chinese and US media"-- Provided by publisher
