Sommario/riassunto	Cultures of Uneven and Combined Development seeks to explore and

develop Leon Trotsky's concept of uneven and combined development. In particular, it aims to adapt the political and historical analysis which originated in Trotsky's Russia for use within the contemporary field of world literature. As such, it draws together the work of scholars from both the field of international relations and the field of literature and the arts. This collection will therefore be of particular interest to anyone who is interested in new ways of understanding world literary texts, or interested in new ways of applying Trotsky's revolutionary politics to the contemporary world order. Contributors: Alexander Anievas, Gail Day, James Christie, Kamran Matin, Kerem Nisancioglu, Luke Cooper, Michael Niblett, Neil Davidson, Nesrin Degirmencioglu, Robert Spencer, Steve Edwards.
