

1. Record Nr.	UNINA9910795550603321
Titolo	Numbers and numeracy in the Greek polis / / edited by Robert Sing, Tazuko van Berkel, and Robin Osborne
Pubbl/distr/stampa	Leiden, Netherlands ; ; Boston, Massachusetts : , : Brill, , [2021] ©2021
ISBN	9789004467224 900446722X 9789004467217
Descrizione fisica	1 online resource (297 pages) : illustrations (some color)
Collana	Mnemosyne, Supplements, history and archaeology of classical antiquity ; volume 446
Disciplina	510.938
Soggetti	Mathematics, Greek Numeration
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	A counting people : valuing numeracy in democratic Athens / Lisa Kallet -- The appearance of numbers / Robin Osborne -- Punishing and valuing / Steve Johnstone -- Ten thousand : fines, numbers and institutional change in fifth-century Athens / Josine Blok -- Numeric communication in the Greek historians : quantification and qualification / Catherine Rubincam -- Creative accounting? Strategies of enumeration in Epinician texts / Daniel Mahendra Jan Sicka -- Hidden judgments and failing figures : Nicias' number rhetoric / Tazuko Angela van Berkel -- Performing numbers in the Attic orator / Robert Sing -- Numbers, ontologically speaking : Plato on numerosity / George Florin Calian -- Doing geometry without numbers : re-reading Euclid's Elements / Eunsoo Lee.
Sommario/riassunto	"We tend to think of numbers as inherently objective and precise. Yet the diverse ways in which ancient Greeks used numbers illustrates that counting is actually shaped by context-specific and culturally-dependent choices: what should be counted and how, who should count, and how should the results be shared? This volume is the first to focus on the generation and use of numbers in the polis to quantify,

communicate and persuade. Its papers demonstrate the rich insights that can be gained into ancient Greek societies by reappraising seemingly straightforward examples of quantification as reflections of daily life and cultural understanding"--
