Enterprise and social value: Responsible innovation in the denim industry-- Chapter 5. Social enterprise, creative arts, and community development for marginal or migrant populations-- Chapter 6. Made in Italy: Reclaiming social heritage and artisan know-how-- Conclusion.
Sommario/riassunto	"While the topic of sustainability in textile manufacture has been the subject of considerable research, much of this is limited to a focus on materials and practices and their ecological impact. Padovani and Whittaker offer a unique exploration of the textile industry in Europe from the perspective of social sustainability, shifting the focus from the materiality of textile production to the industry's relationships with the communities from which the products originate". -- Publisher
