Nota di contenuto	Introduction: Planning as historical project -- Common land and primitive accumulation : English hinterlands and the origin of planning -- The commons of publicity : the rise of urban reform in New York and Chicago -- Shaping community in the world-city : centrality struggles in Weimar Berlin -- The capture of creativity : social movements and neoliberal planning in Milan -- Conclusion: Toward a reappropriation of planning.
Sommario/riassunto	"Against the Commons underscores how urbanization shapes the social fabric of places and territories, lending awareness to the impact of planning and design initiatives on working-class communities and popular strata. Projecting history into the future, it outlines an alternative vision for a postcapitalist urban planning, one in which the structure of collective spaces is defined by the people who inhabit them"--
