Sommario/riassunto	"Voices of America: Veterans and Military Families Tell Their Own Stories collects dozens of personal accounts of military life from World War II to the present day. These narratives from Texas Christian University students, faculty, staff, alumni, and family range from deadly combat to downtime, from family dynamics to life after military service. Although the contributors share a connection with TCU and each experience is unique, they share a common bond with all Americans who have served their country across far-flung zones of conflict and decades of history, and speak with urgent relevance to American society today"--
