Ward -- Peripartum Hysterectomy / Todd Boren, Sarah Boyd, Stephen DePasquale, C. David Adair -- Urologic and Gastrointestinal Injuries / Kristy K. Ward -- Postoperative Management of the Difficult Cesarean Delivery / S. Kyle Gonzales, Shae Connor, Tripp Nelson, C. David Adair -- Anesthesia for the Difficult Cesarean Delivery / Anjum Anwar, Ted Bangert, Kristen Vanderhoef -- The Role of Interventional Radiology in the Management of the Difficult Cesarean Delivery / Joanna Kee-Sampson, Travis E. Meyer, Daniel Siragusa -- Operative Suite Prerequisites for Successful Outcomes // Guy I. Benrubi.
Sommario/riassunto	"Rising numbers of Cesarean sections and maternal obesity and associated health risks have resulted in increasingly complex Cesarean deliveries and outcomes, requiring today's surgeon to stay attuned to evolving best practices and master new surgical techniques. This first-of-its-kind reference provides step-by-step, highly illustrated guidance on managing challenging Cesarean sections with a focus on the challenges of abnormal placentation and strategies to manage it. In

a concise, readable format, this text is designed to help surgeons anticipate intraoperative and postoperative challenges and optimize outcomes for mother and baby"--
