Sommario/riassunto	Church, nation and race compares the worldviews and factors that promoted or, indeed, opposed antisemitism amongst Catholics in Germany and England after the First World War. As a prequel to books on Hitler, fascism and genocide, the book turns towards ideas and attitudes that preceded and shaped the ideologies of the 1920's and 1940's. Apart from the long tradition of Catholic anti-Jewish prejudices, the book discusses new and old alternatives to European modernity offered by Catholics in Germany and England. This book is a political history of ideas that introduces Catholic views of modern

Sommario/riassunto	El origen de la bioética, su evolución y su vínculo con los derechos internacionalmente reconocidos se analizan en el manual Derecho y bioética, que sistematiza también los textos considerados de referencia en una disciplina que tiene todavía pendiente su definición, vinculada a los comités de ética desde el pasado siglo XX. Derecho y bioética también analiza las aportaciones de la bioética a la ética médica, proporcionando ejemplos, y los aspectos bioéticos y jurídicos de la investigación biomédica en humanos, incluyendo el big data y la experimentación con animales no humanos. Asimismo, permite profundizar en las cuestiones bioéticas y jurídicas de la reproducción humana asistida, la gestación por sustitución y el diagnóstico genético preimplantacional. Finalmente, la obra identifica los retos tecnológicos, éticos, políticos y sociales de los sistemas alimentarios.
