Female Allegorical Personification of Russia during the Reign of Peter the Great and His Successors: Visual and Written Sources, and the Notion of State -- Epilogue: The Importance of Gosudarstvennost in Contemporary Russia -- Bibliography -- Index

Sommario/riassunto

The book highlights the main features and trends of Russian "political" thought in an era when sovereignty, state, and politics, as understood in Western Christendom, were non-existent at all in Russia, or were only beginning to be articulated there. A comparison with Western Christendom frames the argument throughout the book.
