Sommario/riassunto	Extrait : ""Le milieu du dix-septieme siecle fut une des periodes les plus glorieuses pour la pensee humaine. C'est alors que notre grand Descartes, refugie en Hollande, publia son immortel Discours sur la methode, qui forme, a proprement parler, la base de la philosophie moderne. A peu pres a la meme epoque, un savant hollandais, nomme Swammerdam...""

Sommario/riassunto	An oft-neglected element of postcolonial thought is the explicitly psychological dimension of many of its foundational texts. This unprecedented volume explores the relation between these two

disciplines by treating the work of a variety of anti-colonial authors as serious psychological contributions to the theorization of racism and oppression. This approach demonstrates the pertinence of postcolonial thought for critical social psychology and opens up novel perspectives on a variety of key topics in social psychology. These include: the psychology of embodiment a
