Note generali	This edition also issued in print: 2003.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	How did British Jewry respond to the Holocaust, how prominent was it on the communal agenda, and what does this response tell us about the values, politics, and fears of the Anglo-Jewish community? This book studies the priorities of that community, and thereby seeks to analyse the attitudes and philosophies which informed actions. It paints a picture of Anglo-Jewish life and its reactions to a wide range of matters in the non-Jewish world. The text charts the transmission of the news of the European catastrophe and discusses the various theories regarding reactions to these exceptional circumstances. It investigates the structures and political philosophies of Anglo-Jewry during the war years and covers the reactions of Jewish political and religious leaders as well as prominent Jews acting outside the community's institutional framework.
