Sommario/riassunto	Myanmar is going through a period of profound and contested

transition. The country has experienced widespread if sometimes uneven reforms, including the start of a peace process between the government and Myanmar Army, and some two dozen ethnic armed organizations, which had long been fighting for greater autonomy from the militarized and Burman-dominated state. This book brings together chapters by Burmese and foreign experts, and contributions from community and political leaders, who discuss the meaning of citizenship in Myanmar/Burma. The book explores citizenship in relation to three broad categories: issues of identity and conflict; debates around concepts and practices of citizenship; and inter- and intra-community issues, including Buddhist-Muslim relations. This is the first volume to address these issues, understanding and resolving which will be central to Myanmar's continued transition away from violence and authoritarianism.

Sommario/riassunto

Nakano has received very little attention in works in English on the relevant period, as his approaches to effective power were limited while his career also lacks the violent drama associated with movements resorting to terrorism. Even in Japan he has not been made the subject of much academic enquiry. Though remaining a fairly well-known figure he is more generally consigned to the class of 'ultra-nationalists' who are blamed for the disaster of Japan's defeat. This book uses material from the few biographies available in conjunction with some short sketches of Nakano by others, biographi
